

5.0 Objectives

The project was proposed with improvement on the postgraduate supervision in mind. Below are the list of objectives for the project:

- Introducing a unified platform for postgraduate supervision.
 - Enhance the effectiveness of connecting postgraduate students with supervisors
 - Assist the supervisor with background checking through the built-in profile.
- Guide the potential students with the application process
 - Helps in building a credible portfolio for the students
 - Encourage the users to engage in postgraduate studies
- Acceptance and rejection of supervision request will be done in a more systematic manner
 - Supervision request, acceptance and rejection can all be done in one click, making the process easier and cleaner.
 - Helps the students better themselves in case of being rejected through the supervisors stating their reason of rejection
- Thesis monitoring and comment will be done in a more streamlined way.
 - Through the platform thesis progress monitoring and review can be done in asynchronous mode.
 - Helps the process become smoother, rejecting the requirement of face to face meeting.
- Ease the process of scheduling an appointment
 - With the built-in calendar and timetable an appointment can be scheduled and requested without requiring much work.
- Reminding students of their deadline
 - Provides students with a effective solution to remind them of the deadlines and requirements.
